

LET US READ ALOUD

Read the passage 3 times and colour a camel for each time.

Once two merchants lost a camel. They met a boy who was passing by and asked him if he had seen it. The boy said he had not seen the camel. He asked, "Was your camel blind in the right eye?". "Yes, he was", said the merchants. "Was it lame in one left foot?", asked the boy. It was!", said the merchants. "Was it's front tooth missing?" asked the boy." yes" they said. "Did it have honey on one side and wheat on the other?". "yes!," they answered. "Please take us to it."

"But, I have not seen your camel," said the boy "and I do not know where it is". The merchants got angry and said, "Really! How could you tell us everything about our camel?" "That is my secret". said the boy.

The merchants took him to the king. The boy told the king that he had not seen it. Then, the king asked him how he knew so much about it. The boy said that the camel had eaten grass only on the left side of the path. So he knew that it was blind. The marks of its one left foot were faint. This showed that the camel was lame. While eating grass, it had not eaten the grass in the middle. So he learnt that it had lost its front teeth. There were ants carrying grains of wheat on one side of the path and flies eating honey on the other.
