

LET US WRITE

Dialogue Writing

We already know to write dialogues. Let us quickly recap the four steps to write a dialogue:

Step 1: Look at the question and understand the topic.

Step 2: Read the dialogues and understand what they are talking.

Step 3: Think what you will say if you were talking.

Step 4: Write it.

Now, can we try to write the dialogues on our own?

Write the dialogue and complete the story.
