Try this

a. $1 + 3 + 5 + 7 + 9 + 11 =$ 36 $=$ $6 \times 6 =$ 6^2

b. $1 + 3 + 5 + 7 + 9 + 11 + 13 =$ ____ $=$ ____ $=$ ____

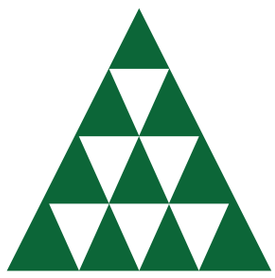

c. $1 + 3 + 5 + 7 + 9 + 11 + 13 + 15 =$ ____ $=$ ____ $=$ ____

Find the missing number!

Relationship between Square number and Triangle numbers

When we add two consecutive triangular numbers we get perfect square numbers.

			
Green : 1	3	6	10
White : 0	1	3	6
Sum : 1+0=1	3+1=4	6+3=9	10+6=16

The sum of green and white triangles is denote the square number.

Do you Know?

'36' is a triangular number and also a square number.
