- Pollutions like air pollution and water pollution affect the animals.
- Sometimes animals are taken to new habitat by people. They cannot survive there.
- Pesticides and chemicals which are used to get rid of insects, pests or weeds, poison the plants and animals.
- Natural disasters like flood, cyclones and fire also destroy animals.

2 Saving Endangered Species

Nature is beautiful and it is filled with varieties plants and animals. But they are endangered mainly due to human activitys we need to take some measures to protect them.

- Hunting and poaching animals should be prohibited.
- We should not pollute the environment.
- Limiting the usage of plastic and recycling it can save the endangered animals.
- Pesticides and chemicals which pollute the environment should be avoided.
- Planting native trees will provide food to the animals.
- We should buy eco friendly products only.

Activity 5

Plant native trees like Banyan Tree, Neem Tree, Umbrella Tree and Java Plum Tree in your school area. These trees can benefit birds.

Do you know?

Project Tiger was initiated in India in 1972 to protect the Bengal Tiger. It was launched on 1st April 1973. Due to this project the population of Tiger has increased in India from 1400 in 2006 to 2967 in 2018.

3 Red Data Book

The Red Data Book is a book maintained for recording rare and endangered species of animals and plants. This book is created to identify and protect the species which are about to extinct.

Black	-	Confirmed to extinct species
Red	-	Endangered species
White	-	Rare species
Green	-	Formerly endangered species but started to recover.
