Importance of Education

Education doesn't mean that one should be literate. It is more than literacy. Education helps to

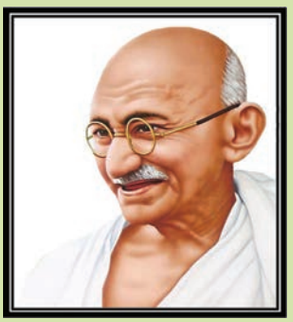

- analyse the reason.
- build skills to live.
- know what is right and wrong.
- lead a moral life.

"Literacy in itself is no education. Literacy is not the end of education."

"Real education consists in drawing the best out of yourself."

-Mahatma Gandhi

Education helps in broadening one's mind. It removes superstitious beliefs. Education helps in increasing awareness of surroundings, social and political issues. It develops wisdom.

Swami Vivekananda is best known for his speech which began with the words *"Sisters and brothers of America."*

"Education is the manifestation of the perfection already in man."

-Swami Vivekananda
